

SmartInsights
Insightful Analytics as-a-Service

Get intuitive and quick to action visibility and analytics in a single pane of glass. Aryaka provides a fully managed SD-WAN delivered as a service for global enterprises that delivers significantly better performance for cloud and on-premises applications for enterprise datacenters, branch offices and remote/mobile employees anywhere in the world.

SmartInsights provides deep insights into the state of a customer's WAN accessible via MyAryaka, a cloud-based orchestration and visibility portal that gives customers the ability to configure, control and manage all Aryaka's Managed SD-Service. Ensuring networks are set up, configured and remain optimized at scale in an increasingly distributed IT environment is paramount for any enterprise.

The MyAryaka Cloud Portal also offers deep, end-to-end network and application visibility for your business, and provides APIs for graph data as well as an option to embed URLs which can be used to integrate to customer's existing visibility tools.

Application-aware network Analysis tool	Status, Performance, Optimization and Reporting
Cloud-based Orchestration	Centralized Configuration and Order Management
Reporting Metrics	Utilization insights, Health and Last Mile Insights

SmartInsights provides visibility and insights across all Managed SD-WAN Services

- SmartManage
- SmartConnect
- SmartOptimize
- SmartCloud
- SmartSecure

Monitor, Configure, Get Status, and Generate Reports in Real-time

Customers have real-time access and visibility to monitor, configure, get status updates with highly granular views. Below table provides a high-level overview of SmartInsights metrics and information accessible via the MyAryaka Cloud Portal. For a complete list, log in to <https://my.aryaka.com>.

Monitor	Configure	Status
